

The Science of Risk: Insights into Understanding the Challenges and Opportunities in Entrepreneurship and Investing

The world is an uncertain place. To thrive, and often to simply survive, we must all grapple with, and overcome, a broad selection of risks. The most successful among us are those who respect risk, but also recognize the presence of risk as opportunity.

Attendees will learn to identify, quantify and mitigate various risks, and leave with a better understanding of their own risk tolerance.

Guest Speakers:

Yuval Bar-Or, Ph.D

Yuval is a leading expert in decision-making in the context of risk. He is an Assistant Professor at Johns Hopkins University's Carey Business School, where he primarily teaches investments, wealth and risk management courses. He is the author of seven books, including the Pillars of Wealth book series for doctors. His Pillars of Wealth initiative helps doctors make better decisions for themselves, their families, and their private practices. Yuval received his Ph.D. from the Wharton School of Business.
